## Summary

### Creative Tools

Creative Tools supplies 3D printer and 3D scanner products incl filaments, accessories and support and also 3D software for leading CAD, modeling, animation, and rendering.

### #3DBenchy

is a 3D model designed by us at Creative Tools specifically for testing and benchmarking 3D printers. It is a small recognisable object that you can download for free, make and share.

It is designed to 3D-print quickly and be a fun tool for calibrating your 3D printer. There is a single-part STL file for 3D printing the boat in one material, and a multi-part STL assembly to suitable for multi-material/printhead 3D printing.
